

PROJECT INSTRUCTIONS – STAR SUMMIT 2026

(Effective from 24-02-2026, 8:00 AM onwards)

All students and guides are instructed to strictly adhere to the following regulations for the Project Course:

1 Guide & Student Allocation

The Guide and Student must belong to the same class.

The Guide Room is the Student Room – students are not permitted to sit elsewhere.

The Guide is fully responsible for student discipline and presence.

2 Project Work Commencement

Project work must begin from Day 1 (24-02-2026, 8:00 AM).

Attendance will be marked from 8:00 AM onwards daily for the Project Course.

Only students who physically present and actively participate will be marked present.

3 Title & Research Restrictions

Repeated titles are strictly prohibited.

Last year titles cannot be reused under any circumstances.

Previously mentioned restricted algorithms must NOT be used in any case.

4 Title Requirements

2025 Batch Students – Must complete 2 titles.

2024 Batch Students – Must complete 4 titles.

No relaxation or reduction will be permitted.

5 PICO Concept – Mandatory Understanding

Every student must clearly understand and apply the PICO concept:

P – Problem/Population

I – Intervention

C – Comparison

O – Outcome

Without proper PICO framing, the project will not be approved.

6 Manuscript to Poster Completion

Writing of manuscript must follow the given schedule strictly.

Poster preparation must also be completed as per schedule.

No extra time will be given for poster preparation.

Poster template will be shared during the scheduled time.

Final STAR SUMMIT presentation attendance percentage is mandatory.

7 Attendance & Discipline

Students must NOT roam outside during project hours.

Attendance will be marked only for presenting students.

Students roaming outside will be the responsibility of the Guide.

Minimum attendance percentage is mandatory to participate in the STAR SUMMIT Presentation.

8 Infrastructure & Instrumentation Usage

Students are permitted to use instrumentation and laboratory facilities throughout the University for data collection and result validation.

Proper documentation and recording in the separate project notebook is compulsory.

9 Documentation

Each student must maintain a separate notebook for the project.

All research progress, results, drafts, and corrections must be documented.

⚠️ STRICT COMPLIANCE REQUIRED

The provided schedule must be followed without deviation.

No extension or exception will be entertained.

All the Best

Best Regards
